

# 48-core optical cable splice box model

## Overview

MBN-FOSC-A10 fiber optic splice closure joint enclosure 48 cores is made of flame retardant materials, and it can be used to protect and splice the fiber cables. It has good protection for indoor & outdoor use. It's a necessary part of the optical network project. Suitable for mounting on overhead poles and. The fiber optic termination box serves as a key termination point in FTTx communication networks, facilitating the connection between feeder cables and drop cables. It supports fiber splicing (both fusion and mechanical splicing), splitting, and distribution operations. Maximum capacities: Up to 48Cores. Vertical Fiber Optic Splice Closure FOSC V768 is widely applied to the splicing, distributing variable optical. 48 core Fiber Optic Splice Closure FOSC Waterproof Horizontal cable Joint Closure Description: Fiber Optic Splice Closure (FOSC) is a member of dome series. The function of the product is in the optical transmission link, to provide various types of fiber optic cable through, branching, and related.
