

Bahrain Central Loop Cable

Overview

As part of EWA's strategic 400 kV Transmission Development programme (2009 – 2013), this project adds a crucial link to the infrastructure of the Kingdom of Bahrain and is the first 400 kV XLPE submarine cable to be installed in the GCC (Gulf Cooperation Council) Region. The Kingdom of Bahrain, an island country between Saudi Arabia and Qatar, has a great need for interconnections to support growing energy demand. With this in mind, 'Base' and 'Loop' projects were initiated, which are crucial to country's new 400 kV backbone network and support economical, reliable. In a significant project undertaken in Bahrain, we played a pivotal role in the cable lay operation involving six power cables and three fiber optic cables. This project was distinguished by our remarkable cable burial operation, where we set new benchmarks in terms of depth and precision. We represent well known reputed cable manufacturers and also stock their products. We deal with MV & LV. Established in Bahrain from the year 1995, BICC MET a Ducab promoted Joint Venture are stockist and dealers of complete range of Cables and Accessories. Since then, the company has developed into a significant player in the Aluminium and Electrical.
