

Benin 6-circuit distribution box

Overview

It supports up to 6 AC inputs and 1 AC output, with a rated voltage of 690V and a maximum operating temperature range of -25°C to +60°C. The distribution box (DB box) helps safely and efficiently distribute electrical power. Today, electrical systems are essential for homes and industries. Multiple outlet power strips are manufactured in accordance to Benin standards with agency approvals. It integrates power distribution, protection, and monitoring capabilities, and is responsible for distributing power to entire commercial or residential. Ces Coffrets de Securie Simple destinés à des branchements particuliers monophasés et sont prévus pour recevoir les équipements nécessaires au comptage (Pour Compteurs Electromécaniques ou électroniques à prepayment Monophasés, disjoncteurs et coupe-circuits de branchement). Once receive your. Feature highlights: The BENY AC Combiner Box is designed for solar PV systems, featuring a robust powder-coated metal enclosure with IP65 protection, ensuring durability against harsh weather conditions.
