

Chilean floating optical cable manufacturer

Overview

The cable is being developed by Desarrollo País, the state-owned company that develops infrastructure projects and H2 Cable, a subsidiary of Singapore-based BW Digital. A feasibility study estimates that construction of the cable will cost \$400 million. The company specializes in advanced fiber optic telecommunications and is dedicated to deploying fiber optic networks throughout Chile, enhancing broadband access for consumers and businesses. Their extensive ultra-broadband network, built to high industry standards, supports the digitalization. The Humboldt Cable System is a 14810 km submarine cable connecting Chile, French Polynesia and Australia, with branches for the possible connection of other countries and territories. As of 2025, the plan is to build a 14,800-kilometre (9,200 mi) cable from Valparaíso, Chile, to HFCL is recognized as one of the largest manufacturers and suppliers of fiber optic cable across the globe, providing high-quality products and reliable services. These projects offer opportunities to U. suppliers of fiberoptic and other.
