Reach inside panels, disconnects, and raceway to bend and position heavy duty cable with greater precision and less fatigue than bending by hand. The dies on the ends of these benders are sized to handle large wire gauges; fit your cable into the dies and push or pull the handle to bend. Are you looking to assemble PFLITSCH cable glands quickly, safely and with the correct torque or dismantle them again for servicing?

The good news: you don't need any special tools to do so. The even better news: we have a lot of clever little helpers nevertheless, that have been proven to save.
