

Exfo Optical Cable Testing Machine

Overview

The BA-1600-OSFP delivers up to 3.2T total test capacity with two independent 1.6T OSFP ports for high-speed cable and transceiver validation. Modular dual-slot, mobile-connected testing platform optimized for field installation and maintenance. of the top CSPs worldwide use EXFO solutions audits of quality of service and performance worldwide in fiber optic test solutions We help networks transform. We enable tomorrow's technologies. Let's. The MaxTester 700D Series builds on the proven tablet-inspired, lightweight and rugged OTDR MaxTester platform. The familiar 7-inch, outdoor-enhanced touchscreen continues to deliver an unprecedented user experience with its intuitive Windows-like GUI ensures a fast learning curve. The OTDR. EXFO offer a broad range of test equipment for fibre-optic systems. These include standalone handheld and benchtop instruments, optical sampling oscilloscopes, tuneable laser sources, and modular intelligent test systems with power, PDL and return-loss meters, EDFA boosters, variable attenuators. The Exfo is a highly versatile, all-in-one fibre optic testing solution that offers a range of testing capabilities for both single-mode and multi-mode fibre. With advanced functions like OTDR, optical power measurement, and loss testing, this device simplifies fibre network installations. Fully featured Tier-1 certifier compatible with the FTB-1v2/FTB-1 Pro, FTB-2/FTB-2 Pro and FTB-4 Pro modular platforms.

Article Content

Exfo — Networks Centre

A Global Leader in Fibre Test Equipment EXFO is a leading worldwide industry provider of optical fibre test equipment for fixed and mobile telecommunications networks.

Products

Products At EXFO, our products help you deliver top-notch services with speed and quality. Our high-performance, easy-to-use solutions are designed to address your needs, quickly and effectively

Top 10 OTDR Manufacturers & Brands: 2026 Buyer's Guide

1. EXFO The Reputation: The undisputed king of optical testing. Engineering Note: EXFO is famous for its iOLM (Intelligent Optical Link Mapper) software, which automates OTDR testing and turns

EXFO Test Equipment Rentals | Fiber Optic Testers

Using an EXFO fiber tester allows technicians to evaluate the cable used in data networks and fiber optic systems. ATEC carries several EXFO Fiber Tester options with useful features that help ensure

EXFO — Comms Centre

Mini yet mighty, the AXS-120 brings EXFO's renowned OTDR accuracy, reliability and durability to the field in a compact form factor.

EXFO MAX-860-1-100optical-Cable Test Dual Port 1Gbit/s

Comprehensive testing for DS_n/PDH, ISDN, SONET/SDH, OTN and Ethernet interfaces up to 10 Gbit/s Faster Ethernet service activation with EtherSAM (ITU-T Y.1564) Dual-port testing up to 10G WAN

MaxTester 945

Onboard assistance and diagnosis The MAX-945 Fiber Certifier provides a foolproof method against test cord reference mistakes and negative loss thanks to its step

EXFO (Test Systems)

EXFO offer a broad range of test equipment for fibre-optic systems. These include standalone handheld and benchtop instruments, optical sampling oscilloscopes, tuneable laser sources, and modular

Network test, monitoring and analytics experts | EXFO

EXFO's unique blend of equipment, software and services accelerate digital transformations related to fiber, 4G/LTE and 5G deployments

EXFO Test Equipment

It delivers EXFO's tried and true OTDR quality and accuracy along with the best optical performance for right-first-time results, every time. The plug-and-play hardware options, like the VFL, power meter

EXFO | Fiber Optic Testing Equipment, Test Kits

Specialized Products offers innovative solutions from EXFO - fiber optic testing tools, accessories, telecom test equipment, test and inspection kits.

Products

Modular dual-slot, mobile-connected testing platform optimized for field installation and maintenance. Pocket-sized VFL, an essential tool for any technician testing fiber. Always-on connectivity and

Rent or Buy EXFO test equipment | Electro Rent

Network operators rely on EXFO test equipment for end-to-end link validation. With EXFO OTDR testers, users can accurately verify the integrity of fiber optic

EXFO Max Testers

The MaxTester 730C (MAX-730C) is designed for testing through FTTH/PON splitters for end-to-end characterization. This handheld OTDR is ideal for

Field network testing

Field network testing EXFO's field network testing solutions deliver unique value by automating, streamlining and sequencing your field tests and workflows—from network deployment and service

Optical power and loss test kits | EXFO

Tier-1 certification kit with power meter and light source, compatible with multiple duplex and multi-fiber connectors up to 24 fibers. Measures loss, length, and polarity in just 1 second, as per certification

Broadband Testing Equipment by EXFO

EXFO's Test & Measurement solutions deliver unique value by automating, streamlining and sequencing field testing and production lines.

EXFO — Comms Centre

EXFO Optical fibre test equipment for fixed and mobile telecommunications networks Testing equipment available to meet FTTx, LAN, Metro, PON, and CATV fibre network requirements Join some of the

EXFO Fibre Optic Testing

With advanced functions like OTDR, optical power measurement, and loss testing, this device simplifies fibre network installations, maintenance, and troubleshooting.

EXFO Test Equipment Rentals | Fiber Optic Testers

EXFO is an industry-leading manufacturer in fiber optic testing and network testing. ATEC rents cutting-edge EXFO test equipment at affordable rates.

Light-source testing solutions | EXFO

Light sources Light sources simulate the optical voice, video and data signals of real-life service applications, making them an essential component of a thorough testing process. Discover EXFO's

Live fiber detection equipment | EXFO

Live fiber detection EXFO's handheld live fiber detectors don't disrupt traffic, nor damage or over-stress fibers, enabling efficient, accurate and reliable data acquisition. Pinpoint live and dark fibers and

Optical fiber multimeter | Optical Explorer | EXFO

EXFO Advisor validates link quality in seconds, assigning a 1-5 star rating according to industry best practices With power checking and

Ethernet/IP test equipment | EXFO

Ethernet testing Whether you are assessing Ethernet backhaul, Ethernet business services or packet transport networks (up to layer 4), we have the innovative and comprehensive solutions you need to

Power meters for fiber networks | EXFO

Power meters Power meters are a toolbox essential for all technicians installing or maintaining any type of fiber networks. From general-purpose meters to meters optimized for certain types of
