

Export Micro-module Data Center IP65

Overview

Rugged IP65-rated enclosure with 8kW integrated best-in-class cooling; Insulated cabinet with integrated environmental monitoring, 10kVa UPS and battery; Shock and vibration tested to ship fully integrated. Delta InfraSuite is a new generation, highly integrated modular datacenter solution. It uses racks as the datacenter carrier and fully integrates all sub-systems including UPSs, cooling, power distribution, lightning protection, fire control (optional), wiring, airflow management, intelligent. Highly integrated and flexible installed data center infrastructure for rapid deployment and efficient operation and maintenance Inspur intelligent micro module product adopt factory prefabrication production and on-site modular installation technology for rapid deployment and flexible expansion. Micro data centers enable Industry 4. 0 and edge computing by bringing IT wherever you need it most. The compatible precision cooling system including Row Cooling, Room Cooling and Liquid Cooling, removes heat and creates appropriate working temperature and humidity environment for critical IT equipments, while consumes lower energy benefiting from hot/cold air management design. Indirect Free. Supermicro Outdoor Edge System family leverages Intel® architecture processors for performance for 5G, AI, smart city, and other edge applications.
