

# Fiber Optic 4-Port Terminal Box Splicing

## Overview

This fiber wall outlet features 4 adapter ports compatible with SC or LC connectors, supporting up to 4-core or 8-core fiber splicing and termination. The 4 port FTTH termination box is a professional enclosure designed to provide a reliable and efficient fiber termination solution for indoor fiber-to-the-home applications. It serves as an indoor fiber outlet, connecting drop cables to end-user devices and ensuring stable, high-speed optical. The HTB8010 4 Ports FTTH Fiber Termination Box is specially designed for fiber access termination in residential or light commercial buildings. It offers mechanical protection for fiber and pigtail management, integrates splice and termination in a compact form, and features user-friendly operation. This 4 strand optical fiber distribution box is used for the fusion splicing, splitting, wiring transmission and other functions of the optical transmission terminal. It can effectively terminate, protect and manage the optical cable. It is a necessary equipment in network transmission. Shop. Lower Insert loss and easy splicing. Capacity of Fiber Why Choose Us?
