

Huawei sells FTTR splitters

Overview

The FTTR (Fiber to the Room) GPON PLC Splitter is an integral component of Huawei's FTTR solutions. This splitter exemplifies the convenience of a plug-and-play device that requires no field splicing, offering immediate functionality upon installation. Plug-and-Play Simplicity: Ready to use out of the box. The HUAWEI IFDN (Indoor Fiber Distribution Network) Fiber Splitter & ATB products provide high-speed, reliable, and economical fiber connection for indoor networks. Their passive optical fiber splitting technology, light and elegant bodies allow them to be flexibly deployed in various locations. At AfricaCom 2025, Huawei highlighted how its Fibre to the Room (FTTR) solutions are reshaping broadband for homes and small businesses across Africa. The company positioned FTTR not just as an upgrade to in-building connectivity, but as a way for operators to turn broadband into a broader digital. welcome to taobao buy huawei fttr splitter atb2121 fiber optic cable panel atb2120, taobao taobao taobao/tmall tmall tens of billions of hot selling goods, official logistics can send to global, support foreign currency payment and other payment methods, platform customer service 24hours online, to.
