

Intelligent DDF patch panel

Overview

This 1U panel is used for 19" standard rack with ERI Cat. 6A Modular jack and fiber connector. Cross-connection setting by dipswitch Dual contact point sensor (Patent pending) RS-485 communication between panel and controller High impact flame retardant plastic module in. This complete & intelligent-ready physical layer management system uses RFID technology for wireless detection of individual patch cords & real-time monitoring of unintended physical changes in network infrastructure. Belden offers a variety of software solutions. A PCU (Panel Control Unit) is equipped at the front of the patch panels and scans the area in front of each port. © 2026 Infinique Worldwide Inc. Xiaolin town, Cixi City, Zhejiang Province, China Copyright © 2024 CIXI ANSHI COMMUNICATION EQUIPMENT CO. Sitemap | XMLThe SYSTIMAX® iPatch® HD & UD fiber panels are a component of the imVision® automated infrastructure management (AIM) solution and provide intelligent connectivity to the data center.
