

# Lithuanian DC power supply unit 2U warranty

## Overview

The warranty period is 24 months, beginning on the passing of risk. Share your thoughts with other customers. The five year warranty GENESYS™ 2U power supply series can deliver power ratings up to 5200W, the highest power density available in a 2U rack size. It offers voltages of up to 600V and currents of up to 600A. Multiple remote programming methods are available including built-in RS232 & RS485 and. The Seasonic industrial power supplies with 80 PLUS® Gold efficiency rating achieve up to 90 % efficiency at 50 % load at 115 V AC input. The warranty does not cover any product defects which are the result of incorrect installation, inappropriate use, incorrect operation, negligence, or other factors. They allow for easy setup of applications according to the source-sink principle with a minimum. The Eltek Flatpack S 2U Compact and High Efficiency DC Power System, 2U System, -48V/200A, is a small power-dense system based on pluggable breakers and rectifiers and can easily be configured to fit your required application, even in field.
