

Outdoor power distribution box column dimensions

Overview

This standardized enclosure size (400mm high x 500mm wide x 200mm deep) is perfectly suited for decentralized power distribution, auxiliary circuits, or monitoring equipment located outdoors. An outdoor electrical distribution box serves as the critical junction point where incoming power lines are split into multiple branch circuits for outdoor installations, parking lots, building exteriors, and industrial facilities. Suitable cable glands of heavy duty, double compression type made up of Brass shall be provided at the bottom of the Box One for incoming cable and one outgoing cable. Standard panelboard boxes are supplied without knockouts (blank endwalls). The EZ Box and EZ Trim are provided standard for Pow-R-Line 1X and Pow-R-Line 2X lighting panelboards, as well as Pow-R-Line 3X. Designed for underground or outdoor distribution systems, the Cable Distribution Box offers a tamper-resistant and weatherproof solution for medium voltage control and protection.
