

Plastic distribution box control box

Overview

A Plastic Distribution Box is an enclosure designed to protect electrical circuits, switches, and wiring connections from external damage, dust, moisture, and accidental contact. Effective protection: The PRITEX control cabinet provides perfect protection for electrical components such as switches, fuses, relays and controls. It measures 180 x 240 x 120 mm and comes in light grey (RAL 7035) Optimally insulated: The distribution box is made of halogen-free ABS (acrylonitrile. The groove contours of electronic distribution boxes and the very narrow grooves of micro-distribution housings are seamlessly sealed with the sealing foams of the polyurethane-based FERMAPOR K31 or the silicone-based FERMASIL product families. They are widely utilized in various fields, including solar energy photovoltaic systems, outdoor lighting installations. Plastic distribution boxes for surface mounting - large product range in ELMARK. Plastic distribution box and boards are widely used in the family, high buildings, houses, stations, ports.
