

PoE Monitoring Switch 20

Overview

The 20-port switch, supporting 16 PoE Gigabit Ethernet ports, is tailored for security monitoring applications and Ethernet projects. It's fully optimized for security monitoring, boasting fast packet forwarding and gigabit transfer rates to ensure clear images and seamless. VERSITRON'S SG72060MP 20-port Managed PoE+ switch features 16 RJ45 Ethernet Ports and four 100/1000 SFP ports. This 20-port Ethernet switch is IEEE802.3af/at compliant and has a power budget of 400 watts, ensuring seamless connectivity and power delivery to a wide range of devices in an enterprise. Easy managed PoE switch with 16*10/100/1000M RJ45 ports and 4*10/100/1000M uplink RJ45 ports and 4*1000M SFP fiber combo ports. It built-in 250W power supply and desktop and 1U/19" cabinet installation. The ONV-POE53020PFCM is a Gigabit Easy. TRENDnet's Gigabit Web Smart PoE+ Switch series offers advanced L2+ features with enhanced traffic management controls to meet the evolving demands of SMB networks. and Canada Only) RELIABLE TECH SUPPORT: Our team of advisors, support and tech experts are English speaking, and available for all your needs during normal business. Supports EWIND remote cloud platform management and mobile app operation, offering various real-time alerts/notifications, fault detection and port restart etc. 3at/af compliant up to 30W, automatically adaptive.
