

# Portable Fiber Optic V-groove Connector

## Overview

Install fiber optic connections rapidly with this field-installable fast connector designed for FTTH and outdoor applications. The arrays are manufactured using precision silicon wafer V-Groove technology or Pyrex V-Groove in conjunction with a Pyrex lid, enabling sub-micron alignment accuracy with UV cure attachment capabilities. The FITEL Ninja is a powerful, fully-automatic, state-of-the-art V-groove splicer. It is suited for metro, LAN, and fiber-to-the-home applications and can be used in a variety of applications. This high-quality. The PM V-Groove arrays are mass produced to be incorporated in various photonic devices, particularly for high speed 40 Gb/s to next generation 100 Gb/s coherent detection systems. Robust Stainless Steel - Optical fiber V groove crafted from industrial-grade stainless steel maintains. Corning offers a suite of cost-effective glass V-grooves and arrays that are pitched at 127 microns and 250 microns, with product configurations ranging from 1 to 96 channels.
