

# Southeast Asian manufacturers of optical fiber cables for smart buildings

## Overview

In value terms, optical fiber cables production shrank notably to \$X in 2023 estimated in export price. Over the period under review, production, however, recorded a relatively flat trend pattern. The pace of growth was the most pronounced in 2019 with an increase of X%. Over the period under review, production reached the maximum level at \$X in 20. After two years of growth, the ASEAN optical fiber cables market decreased by X% to \$X in 2023. The total consumption indicated a noticeable expansion from 2012 to 2023: its value increased at an average annual rate of X% over the last eleven-year period. The trend pattern, however, indicated some noticeable fluctuations being recorded throughout t. Exports in ASEANIn 2023, overseas shipments of optical fiber cables decreased by X% to X tons for the first time since 2020, thus ending a two-year rising trend. In general, exports, however, showed a resilient increase. The pace of growth appeared the most rapid in 2014 with an increase of X%. As a result, the exports attained the peak of X tons. From 2015 to 2023, the growth of the exports failed to regain momentum. In value terms, optical fiber cables exports dropped to \$X in 2023. Overall, exports, howev. Exports by CountryVietnam was the largest exporting country with an export of about X tons, which rea. Imports in ASEANIn 2023, purchases abroad of optical fiber cables decreased by X% to X tons for the first time since 2019, thus ending a three-year rising trend. In general, imports, however, showed a strong expansion. The pace of growth appeared the most rapid in 2013 when imports increased by X% against the previous year. The volume of import peaked at X tons in 2022, and then contracted notably in the follo...
