

Telecom Fiber Optic Router 6000

Overview

This router supports Wi-Fi 6, offers four Gigabit LAN ports and is specially optimized for use with fibre optic connections. WiFi 6 – THE WIFI FUTURE: Much faster Gigabit WLAN (IEEE 802. 11 ax) with up to 6,000 Mbit/s, even with many simultaneous device connections. Up to 2000 Mbps fiber optic Latest mesh technology: ensures seamless Wi-Fi in all rooms. Speed. A fiber-optic connection is the best choice for fast home internet as it has a number of advantages compared to traditional copper cables, such as faster speeds and less interference. Many major ISPs, such as Verizon and Xfinity, offer fiber connections directly to your door, known as FttP or Fiber. The ClimatePartner certified product label confirms that a product meets the requirements for the five steps in climate action including calculating carbon footprints, setting reduction targets, implementing reductions, financing climate projects and communicating transparently to continuously. Ericsson Router 6000 Series is a radio integrated, service provider SDN enabled IP transport portfolio managed by a single end-to-end management system. It delivers high-performance connectivity for LTE, LTE- advanced and 5G- applications. But what is important when choosing one?

And how do the models differ?
