

Three-phase power wall distribution box

Overview

A three phase distribution box controls and guards electricity in three-phase power systems. This device makes sure power goes to big machines safely and quickly. Big buildings with many floors. Spend over £100 (ex. VAT) to qualify for free Next Day Delivery (applicable to UK mainland, exceptions may apply). One of our team will be in. Introducing the Camlock Connection Box (CCB) - your ultimate solution for quick and reliable power connections! This CCB is a compact, high-performance quick-connect portable power distribution box designed to handle circuits rated at a maximum of 400 amps and 120/208 volts. Made in Austria and the UK, these heavy duty power distribution units are suitable for all industrial. When selecting the right 3 phase power distribution box for your application, prioritize models with UL/CSA certification, proper NEMA enclosure ratings (such as NEMA 3R or 4X for outdoor or harsh environments), and sufficient amperage capacity—typically ranging from 100A to 600A depending on load.
