TendersOnTime, the most comprehensive database for Government Tenders and International Tenders; collects information on Pipeline. The Government of Vanuatu has set ambitious targets for the decarbonation of electricity generation with 100% of the electricity generated from renewable sources in 2030. The achievement of this goal will consist in new RE projects by UNELCO but also projects from Independent Power Producers (IPP). It is with a deep sense of duty and commitment that I present this overview in my capacity as the Honorable Minister of Infrastructure and Public Utilities (MIPU) for the Republic of Vanuatu. Vanuatu's government procurement, estimated at around \$150 million annually, channels funds towards infrastructure development, education, and healthcare.
