

What are the specifications for an 18-channel distribution box

Overview

18 Channel 12V DC Power Supply Distribution Box with Individual PTC resettable fuses, which protects the device from over load or short circuit. Input Voltage : AC100-240, 50/60 Hz / Output Voltage : 12V DC 10A / Fuse Rating : 1. It can power up to 18 security surveillance cameras. It is designed to distribute power efficiently to up to 18 different channels, allowing for a streamlined and organized setup for multiple CCTV. What products do you need?

COMMERCIAL GRADE CCTV power distribution box, supply 18 channels output. This unit provides maximum protection for connected devices with a rugged metal housing and circuit design that allows each output to provide increased protection for. Actual units use PNP status indicator, NPN status indicator, or neither. Dimensions are shown in mm (in. 81 ft)] for standard cable lengths. Built in a ventilated metal enclosure with power and channel-status.
