

# What is the rainproof cover on the distribution box called

## Overview

A dripshield along the top protects from falling rain, snow, or sleet. RSP Supply offers a wide selection of rain hoods and drip shields designed to add an extra layer of defense. In order to further improve the waterproof performance of the outdoor electrical distribution box, the manufacturer will also equip it with a special rain cover. The rain cover is made of high-strength waterproof material, which can effectively block rain and prevent rain from directly invading the. □□ Specification Insight: NEC 312. 2 requires outdoor distribution boxes to have rain-tight enclosures when installed in wet locations, but many installers mistakenly specify NEMA 3 (weather-resistant) instead of NEMA 3R or 4 (rain-tight), leading to inspection failures and costly retrofits. What is. The invention discloses an outdoor rainproof distribution box. The outdoor rainproof distribution box comprises a rectangular casing, a box door and a rainproof cover, wherein a flange is arranged to extend from the circumferential edge of the box door towards the inner side, a seam allowance. Construction: C & I Enclosures Type 3R Rainproof Boxes are fabricated in accordance with U. specifications from code gauge material.
