

What router should I use for a 10M fiber optic connection

Overview

The best router for fiber internet is one that matches your plan speed, home size, and how you use your connection. Our top overall pick is the Netgear Nighthawk RS700S, a Wi-Fi 7 router built for multi-gig fiber plans that handles up to 200 devices across 3,500 square feet. Many major ISPs, such as Verizon and Xfinity, offer fiber connections directly to your door, known as FttP or Fiber. However, you need a router capable of supporting multi-gig speeds to get fiber internet connectivity. In this guide, I'll share my hands-on experience with the top routers that maximize fiber performance without breaking the bank. To simplify. Are you in search of the perfect router for your optical fiber internet connection?

Look no further! In this guide, we'll explore the top options available on the market to ensure you experience blazing-fast speeds and seamless connectivity. Whether you're streaming, gaming, or working from home.
