

YKE Intelligent Digital Display Meter for Distribution Cabinet

Overview

ZF5135 is a high-performance three-slot semi-digital meter. High precision, good stability, clear display, and excellent craftsmanship. The face frame with push-in self-locking structure has an attractive appearance and is easy to install. The product has two voltage measurement. This document is a manual for ZN series intelligent dual digital display products produced by Shanghai Yanzhao Electronic Technology Co. The product includes 32 functions and can be used as time relays, accumulators, counters, tachometers, and frequency meters, etc. At present, the company has owned the products covering 9 series, more than 100 varieties and hundreds. Aiming at the problem of low recognition accuracy of digital display meter readings when the inspection robot performs inspection tasks, a YOLOv5-based digital display meter detection and recognition algorithm for distribution cabinets is proposed.
